The British Society of Soil Science is dedicated to promoting the study and profession of Soil Science.

In order to achieve these goals, we offer several funding opportunities to support these aims:

**BRITISH
SOCIETY
OF SOIL
SCIENCE**

Student Conference Grant Available to student members of the Society to help fund attendance at conferences applicable to their research field. **Value: up to £500**

Innovation Grants Suitable for teachers of Primary, Secondary and Higher Education Institutions to encourage development of innovative ways of incorporating soil science into lessons. **Value: up to £500**

Field Equipment Grants Suitable for Primary, Secondary and Tertiary Institutions to purchase field equipment to aid in the instruction and understanding of soil science. **Value: up to £1,000**

David S Jenkinson Fellowship Grant This fellowship is available to support early career postdoctoral scientists from the UK to travel and collaborate with an overseas organisation. Suitable for Members of the Society who are UK residents and employed. **Value: up to £5,000 annually**

Brian Chambers Soils Fund Career development funding available to help early career scientists and practitioners develop skills and knowledge needed to manage soils effectively in modern farming systems, essential for the future sustainability of agriculture. **Value: based on application (normally between £250–£2500)**
