

Join the **Midlands Soil Discussion Group**
for an afternoon of soil discussion

“Current Research in Soil Science”

24th March 2021
2:00pm - 4:45pm

Online via Microsoft Teams

Free to BSSS members who are part of the Midlands Soil Discussion Group

Itinerary	
2:00pm	Welcome
2:05pm	Professor Martin Broadley: <i>Geo-nutrition in Africa</i>
2:30pm	Tom Bott: <i>Microbial Indicators of Fugitive Methane Flux</i>
2:50pm	Mihai Cimpoiasu: <i>Preparations for the installation of a long term 4D geophysical monitoring station in the Arctic</i>
3:10pm	Coffee Break and Quiz
3:30pm	Ana Natalio: <i>Free-living soil nematodes as bioindicators of soil health: Analysis, comparison, and applicability in</i>
3:50pm	Samuel Booth: <i>Activity levels and burrowing behaviour of wireworms (Agriotes spp.) in the presence and absence of crop roots</i>
4:15pm	MDSG AGM
4:45pm	Meeting close

If you would like to present at this virtual event, please contact [Andy Tye](#) with a proposed title. MSDG are especially keen to offer the opportunity to Early Career Researchers to present their work.

Register Now

Details for the event and the Microsoft Teams link will be emailed to MSDG registrants 7 days prior. *If you would like to become a member of MSDG, please register for the event and advise the [Office Team](#).*
