

The [British Society of Soil Science](#) (BSSS) was founded in 1947 and is an established international membership organisation and charity committed to the study of soil in its widest aspects. The Society brings together those working within academia, practitioners implementing soil science in industry and all those working with, or with an interest in soils.

Research on soils and enhanced understanding and engagement with soils is essential for agricultural, landscaping, construction, remediation, conservation and archaeological projects, as well as policy direction on critical topics such as climate change.

We promote research and education, both academically and in practice, and build collaborative partnerships to help safeguard our soil for the future. This includes hosting our Annual Conference in Cardiff, where those with an interest in soil science can meet to discuss the critical issues relating to soil.

Annual Conference 2025

The British Society of Soil Science Annual Conference 2025 will take place from **Wednesday 3 to Friday 5 December** in Manchester, this year's theme, "Resilient Soils for a Sustainable Future," will bring together leading experts from the built, natural environment, and agricultural sectors to explore the latest research and policy developments in soil science.

With the UK consultation on a new approach to land use highlighting the need to build houses whilst acting to protect our most productive agricultural land and enhance food security, the role of soil health is more critical than ever.

Across the world, there is growing recognition—from bodies such as the UK EFRA Committee—that soil health should be treated with the same priority as water and air. This conference will provide a platform to discuss these pressing issues, with a focus on:

- The role of soil in climate adaptation, flood mitigation, land remediation and biodiversity
- The policy landscape surrounding soil protection and land use
- The latest research and innovations supporting long-term soil resilience.

Representatives from international, UK nations and Ireland will take part in our keynote policy session on **Wednesday 3 December** will provide an overview of the key activities being undertaken in each of the nations to monitor and manage soils at a governmental level.

Wednesday evening will also see delegates gather together for our gala dinner, where our 100 delegates will have the opportunity to participate in the evening entertainment schedule, enjoy a four course dinner with colleagues, and be entertained by cultural delights.

T: +44 (0)1234 752 983 **F:** +44 (0)1234 752 970 **E:** admin@soils.org.uk **W:** www.soils.org.uk

On the evening of **Thursday 4 December**, we will be holding a networking drinks reception, enabling you to connect with practitioners, who are actively looking to develop their contact base..

The morning of **Friday 5 December** will provide an opportunity for delegates to visit field sites in the north west, with plans to visit the Bold Colliery in St Helens, which will take the delegates on a journey and deep dive into land remediation and the techniques used to transform this landscape into a natural forest.

The exciting and diverse programme will also feature keynote speakers and oral presenters on Wednesday and Thursday, and we invite abstract submissions for oral and poster presentations on: Soils for People Soils for Climate, Soils for Life and Soils for Water.

This a pivotal time to hear from experts, practitioners and policy makers about the latest developments in soil monitoring and management and engage with fellow soil scientists, sector practitioners and policymakers across related disciplines.

Key Information

Event Dates
3 - 5 December 2024

Full details of the conferences can be found on the event pages:
www.soils.org.uk

Who's Attending?
200 attendees per day

Research scientists, soil practitioners, policy makers, regulators, NGOs and anyone with an interest in the sustainable management and monitoring of soils

Venue
Kings House

Kings Church, Sidney St, Manchester M1 7HB
t: +44 (0)161 276 8194

Why sponsor our events?

Reaching your market

Our conferences will allow your company to meet potential business partners, generate new ideas, gather new knowledge, foster collaborations and meet a very defined professional community.

Targeted audience

Promote your specialist products and services by targeting your ideal market of soil science professionals.

Adding credibility

Add credibility to your brand by being associated with the eminent organisation of professional soil scientists in the UK.

Connecting with the community

Sponsorship at our conferences will be a key step for your company in fostering relationships with our community.

Supporting your industry

Support BSSS and encourage other contacts and members to engage with soil, to raise your profile, along with that of the Society.

Advertising to your future employees!

Our conferences will allow your company, product and brand to be uniquely and actively showcased, with access to the upcoming generation of soil scientists.

Sponsorship Packages

Annual Conference Sponsor: £3,000

As a main sponsor, you will enjoy the highest level of visibility pre, during and post event. Included in the package would be:

- Acknowledgement as a sponsor in all communications and marketing material to over 900 members
- Two complimentary tickets to the conference and gala dinner, including the scientific or cultural tour on Friday morning
- Featured advert on showreel between breaks
- Acknowledgement as a sponsor on the conference slides, programme and online event page
- Dedicated Blog hosted on our soils.org.uk website
- Specific thank you from the conference Chair
- Exhibitor table at the conference
- Logo on all delegate name badges
- Email delegate correspondence post event follow up via BSSS (subject to GDPR regulations and BSSS approval of content)
- Match your employer exhibitor table and engagement as a featured employer
- Discount on any additional delegate tickets.
